This easy-to-use Quick Reference Guide is intended to help you more fully appreciate some of the unique features and functions of your new vehicle. However, it is not intended to replace your Owner's Manual. The Owner's Manual contains more detailed information to help you better understand the important safety warnings, features, operation, and maintenance of your vehicle.

REMOTE KEYLESS ENTRY SYSTEM (if so equipped)

LOCK DOORS

Press the fabutton to lock all doors.

UNLOCK DOORS

Press the abutton once to unlock the driver's door only. Press the button again within 5 seconds to unlock all doors.

USING THE PANIC ALARM

Press and hold the button for longer than 0.5 seconds. The panic alarm will sound and the headlights will stay on for 25 seconds. The panic alarm stops when it has run for 25 seconds, or when any button is pressed on the keyfob.

SILENCING THE HORN BEEP FEATURE

- \blacksquare To deactivate Press and hold the \bigcirc and \bigcirc buttons for at least 2 seconds.
- To activate Press and hold the $\frac{1}{1}$ and $\frac{1}{1}$ buttons for at least 2 seconds.

INTELLIGENT KEY SYSTEM (if so equipped)

The Intelligent Key System allows you to lock or unlock your vehicle, open your trunk or rear hatch, and start the engine.

NOTE: It is important to make sure the Intelligent Key is with you (that is, in your pocket or purse).

- The operating range of the door and hatchback/trunk lock/unlock function is approximately 31 in (0.8 m).
- Locking the vehicle Push any door handle request switch once.
- Unlocking the vehicle Push any door handle request switch of once. The corresponding door will unlock.

 Push the door handle request switch of again within 1 minute; all other doors will unlock.

OPENING THE REAR HATCH (if so equipped)

- Push the rear hatch door request switch 02.
- Push the release switch under the rear hatch handle.
- Pull up and out on the handle to open rear hatch.

OPENING THE TRUNK (if so equipped)

- Push the trunk request switch 02.
- Push the release switch 03 under the trunk handle.
- Pull up and out on the handle to open the trunk.

WINDSHIELD WIPER/WASHER SWITCH

- The ignition switch must be in the ON position to activate the windshield wipers.
- Move the lever to the following positions to operate the windshield wipers:
 - IA Intermittent (INT) Front wipers operate intermittently and can be further adjusted by twisting the time control ring IB.
 - Low Speed (LO) Continuous low-speed operation of front wipers.
 - High Speed (HI) Continuous high-speed operation of front wipers.
 - 04 Mist (MIST) Lift the lever up for one sweep of the front wipers.
 - OS Rear Wipers (REAR) Twist the end section to operate the first (INT) or second (ON) speed settings for the rear wipers.
- Pull the lever toward you to activate front washer fluid and several sweeps of the wipers.

HEADLIGHT AND TURN SIGNAL CONTROL

HEADLIGHT CONTROL SWITCH

- Turn the headlight control switch 01 to the ∃DQ∃ position to turn on the front parking, tail, license plate and instrument panel lights.
- Turn the headlight control switch of to the **⑤**D position to turn on the headlights. All other lights remain on.

FOG LIGHT OPERATION (if so equipped)

NOTE: The headlights must be on and the low beams selected for the fog lights to operate.

- Turn the switch (inside collar) 02 to the 幻 position to turn on the fog lights.
- Turn the switch (inside collar) 02 to the **OFF** position to turn off the fog lights.

TURN SIGNAL SWITCH

- Move the headlight control switch up or down A to signal a turning direction. When the turn is completed, the turn signals cancel automatically.
- To signal a lane change, move the headlight control switch up or down B to the point where the indicator light begins to flash, but the headlight control switch does not latch.

HIGH BEAM

■ Push the headlight control switch forward c to select the high beam function. The blue ≧○ indicator light illuminates. Pull the headlight switch back to the original position to select the low beam. The blue ≧○ indicator light goes off.

Pull and release the headlight control switch D to flash the headlight high beams on and off.

STEERING WHEEL SWITCHES FOR AUDIO CONTROL (if so equipped)

- Press the SOURCE button to turn the radio system on.
- To choose Preset A, B, C, CD or XM® (if so equipped) press SOURCE repeatedly.
- The tuning up or down switch can be used to perform the following:
 - Push the \$\displays \text{ switch for less than 1.5 seconds to change to a preset station.}

 - If the vehicle is equipped with a CD changer, push and hold for more than 1.5 seconds to change between CDs.
- Push the + or control switch to increase or decrease the volume.

CRUISE CONTROL (if so equipped)

- To activate the cruise control, push the ON/OFF switch. The indicator light in the instrument panel will illuminate.
- To set cruising speed, accelerate the vehicle to the desired speed, push the COAST/SET switch and release it. The SET indicator light in the instrument panel will illuminate.

- To reset at a faster cruising speed, push and hold the ACCEL/RES switch. When the vehicle reaches the speed you desire, release the switch.
- To reset at a slower cruising speed, push and hold the COAST/SET switch. Release the switch when the vehicle slows to the desired speed.
- To cancel cruise control, push the **CANCEL** switch or tap the brake pedal. The SET indicator light in the instrument panel will go out.
- To resume a preset speed, push and release the ACCEL/RES switch. The vehicle returns to the last set cruising speed when the vehicle speed is over 24 MPH (38 km/h).
- To turn off cruise control, push the ON/OFF switch. Both the CRUISE indicator light and the SET indicator light in the instrument panel will go out.

MANUAL CLIMATE CONTROL

01 FAN SPEED CONTROL DIAL

Turn the fan speed control dial \$\frac{1}{2}\$ to the left (slow) or right (fast) to control fan speed.

02 TEMPERATURE CONTROL DIAL

Turn the temperature control dial for the desired temperature. Turn the control dial to the left for cold air or right for hot air.

03 AIR FLOW CONTROL DIAL

Turn the dial to select the following air flow outlets:

- Air flows from the center and side vents.
- Air flows from the center, side, and foot vents.
- Air flows mainly from the foot vents.
- Air flows from the defroster and foot vents.
- Air flows mainly from the defroster vents.

04 DEFROSTING/DEFOGGING FRONT AND SIDE WINDOWS

- Move the air intake lever 07 to the ♠ position.
- Turn the air flow control dial 03 to the front window defroster mode \(\psi \).
- Turn the temperature control dial 02 left or right to set the desired temperature.
- To set the defroster on high, turn the fan speed dial 01 all the way to the right.
- A/C will automatically turn on for enhanced defrost/defog performance.

05 REAR WINDOW DEFROSTER

Push the rear window defroster switch \overline{w} on. Push the switch again to manually turn the defroster off. This function automatically turns off in approximately 15 minutes.

06 A/C ON/OFF BUTTON

Press the A/C button to turn the A/C on or off.

07 AIR INTAKE LEVER

- Move the air intake lever to the ⇒ position to draw in fresh outside air.
- Move the air intake lever to the c position to recirculate air inside the vehicle.
- Move the air intake lever to the position for maximum cooling when using the air conditioner.

FM/AM/XM®* RADIO WITH CD CHANGER (if so equipped)

The antenna should be placed in the rearward position for maximum radio reception.

01 SEEK/TRACK/FILE BUTTON

Press the **SEEK/TRACK/FILE** button to skip from one track to another on a CD. Each time the button is pressed, the CD will advance or skip back one track.

02 TUNE/FF-REW/FOLDER BUTTON

Press the **TUNE/FF·REW/FOLDER** button to manually tune the radio. If playing a CD, press to fast forward or rewind a CD. If playing a CD that is formatted for MP3s, press the **TUNE/FF·REW/FOLDER** button to skip folders. Press and hold the button to fast forward or rewind an MP3 CD.

03 RADIO BUTTON

Press the RADIO select button to change the band to either FM, AM or XM® radio stations.

04 SCAN BUTTON

Press the **SCAN** button to quickly scan through each broadcasting station. The tuner will pause for 5 seconds on each broadcasting station.

05 PRESET A·B·C BUTTON

Press the **PRESET A·B·C** button until you reach the desired setting. The radio is equipped with three separate banks, each with six station presets. You may store any combination of FM, AM or XM® radio presets on each bank.

06 CD PLAY BUTTON

Press the CD button to begin CD play.

07 SCROLL BUTTON

Press the **SCRL** button to scroll through CD/MP3 text that is too long to be displayed on the first line of the display.

08 AUX BUTTON

Press the **AUX** button to play a compatible device such as an MP3 player when it is plugged into the **AUX IN** jack.

09 AUDIO BUTTON

Press the **AUDIO** button to change the audio settings. Adjust the bass, treble, balance, fade and Speed Sensitive Volume (SSV) and beep on/off by pressing the **AUDIO** button until the desired mode appears in the display. Press the **TUNE/FFREW/FOLDER** button up or down to adjust to the desired level.

10 STATION AND CD SELECT BUTTONS

To store a station in a preset you must first select A, B, or C memory bank by pressing the **PRESET A·B·C** button and tune to the desired FM, AM or XM® station. Then press and hold the desired station select button for at least 2 seconds. When the preset indicator illuminates, a beep will sound, indicating memorization is complete. To retrieve a previously set station, select the memory bank where the preset was set, then press the corresponding station select button.

11 LOAD BUTTON

LOAD A SINGLE DISC - Press the **LOAD** button for less than 1.5 seconds. Select the loading slot by pressing the CD insert button (1-6), then insert the CD.

LOAD UP TO 6 DISCS - Press and hold the **LOAD** button for less than 1.5 seconds. The slot numbers (1-6) will illuminate on the display when the CDs are loaded into the charger.

* XM® Satellite Radio is only available on vehicles equipped with optional XM® satellite subscription service.

CLOCK/SET ADJUSTMENT (CD Changer only)

CLOCK OPERATION

Pressing the **CLOCK** button displays the clock with the radio on or off. Press the **CLOCK** button again to turn off the clock display.

CLOCK SET

- Press and hold the CLOCK button for more than 1.5 seconds to enter the clock set mode.
- 2. Press the SEEK/TRACK/FILE button to adjust the hours.
- 3. Press the TUNE/FF:REW/FOLDER button to adjust the minutes.
- 4. Press the **CLOCK** button again to exit the clock set mode

CLOCK/SET ADJUSTMENT (Single CD only)

If the clock is not displayed with the ignition switch in the ACC or ON position, you need to select the CLK-ON mode. Press the **MENU** button repeatedly until CLK-OFF mode is displayed. Use the **TUNE/SEEK** button to enable CLK-ON Mode.

- 1. Press the MENU button repeatedly until CLK-ON mode appears.
- 2. Press the MENU button again, the time will start flashing.
- 3. Press the TUNE/SEEK button to adjust the hour.
- 4. Press the **MENU** button again; the display will switch to the minute adjustment mode.
- 5. The minutes will start flashing. Press TUNE/SEEK button to adjust the minutes.
- 6. Press the **MENU** button again to exit the clock set mode.

TWIN TRIP ODOMETER

- The twin trip odometer records the distance of individual trips.
- Press the button 01 to change the display as follows: Trip A → Trip B → Trip A.
- Press and hold the button for more than 1 second to reset the trip odometer to zero.

XTRONIC CONTINUOUSLY VARIABLE TRANSMISSION (CVT) ™ (if so equipped)

- The Xtronic CVT[™] does not produce a gear change sensation like traditional automatic transmissions.
- R (Reverse) speed, for CVT vehicles, is limited to 15 MPH (25 km/h).

- Push the ignition knob in.
- Confirm the Intelligent Key warning light is illuminated green.
- Turn the ignition knob to start the engine.

TURNING THE ENGINE OFF WITH CVT (Intelligent Key models only)

- Shift the transmission into P (Park).
- Turn the ignition knob to the **LOCK** position.

OVERDRIVE (O/D) OFF SWITCH

- Each time your vehicle is started, the transmission is automatically "reset" to Overdrive on.
- To turn Overdrive mode off, push the O/D OFF switch of . The OFF light in the instrument panel will illuminate.
- Use the Overdrive off mode when you need improved engine braking.

The transmission in your vehicle requires a special fluid available only at your NISSAN dealer. No other fluid will meet the exact requirements of the Xtronic CVT™.

6-SPEED MANUAL TRANSMISSION (if so equipped)

LOCK OUT

■ In 6-speed manual transmission equipped vehicles, the shift lever is equipped with a Reverse lock-out feature that prevents accidental selection of Reverse (instead of 1st gear).

SHIFTING TO REVERSE

Lift up on the collar just below the shift knob, then move it to the left and up into Reverse.

INTELLIGENT KEY IGNITION WITH MANUAL TRANSMISSION

- The ignition knob can only be turned to the LOCK position when the PUSH release button 01 has been pressed.
- The Intelligent Key lock warning light blinks and the buzzer sounds when the ignition switch is turned to the LOCK position and the ignition PUSH release button has not been completely pressed.

HIGH TEMPERATURE INDICATOR (RED)

When the ignition switch is in the ON position, the high temperature warning light illuminates and then turns off.

LOW TEMPERATURE INDICATOR (BLUE) (if so equipped)

When the ignition switch is in the ON position, the low temperature indicator light illuminates and then turns off after the engine coolant has warmed up.

FRONT-PASSENGER AIR BAG STATUS LIGHT

This vehicle is equipped with the Nissan Advanced Air Bag system. Under some conditions, depending on the type of occupant or object detected in the front passenger seat by the occupant classification sensor, the front-passenger air bag is designed to automatically turn **OFF**. When the front-passenger air bag is **OFF**, the front-passenger air bag status light will illuminate*. For example:

- When the front-passenger's seat is occupied and the passenger meets the conditions outlined in the Owner's Manual, the will not illuminate to indicate that the front-passenger air bag is operational.

*When the system detects that the front-passenger's seat is unoccupied, the passenger air bag status light will not illuminate even though the front-passenger air bag is OFF.

TIRE PRESSURE MONITORING SYSTEM (TPMS)

This system monitors tire pressure. If the low tire pressure warning light illuminates, check the tire pressure in all four tires.

Adjust the low tire pressure to the recommended COLD tire pressure shown on the Tire and Loading Information label located

in the driver's door opening. After tire pressures are adjusted, the vehicle will need to be driven at speeds above 16 MPH (25 km/h) to activate the TPMS and turn off the low tire pressure warning light.

SEAT BELT WARNING LIGHT AND CHIME

■ The light and chime remind you to fasten your seat belts. The light illuminates whenever the ignition key is turned to the ON or START position and remains illuminated until the driver's seat belt is fastened. At the same time, the chime sounds for approximately 6 seconds unless the driver's seat belt is securely fastened.

■ The seat belt warning light may also illuminate if the front passenger's seat belt is not fastened when the front passenger's seat is occupied. For 7 seconds after the ignition switch is in the ON position, the system does not activate the warning light for the front passenger.

CHILD SAFETY REAR DOOR LOCK

Child safety locks help prevent the rear doors from being opened accidentally, especially when small children are in the vehicle. The child safety lock levers are located on the edge of the rear doors. When the lever is in the LOCK position, the door can be opened only from the outside.

MOONROOF CONTROLS (if so equipped)

The ignition switch must be in the ON position to operate the moonroof.

TILTING THE MOONROOF

- To tilt the moonroof up, push the tilt switch toward theposition.
- To tilt the moonroof down, push the tilt switch toward the (02 position.

SLIDING THE MOONROOF

- To fully open the moonroof, push the switch toward the < ⊃ 02 position.
- To fully close the moonroof, push the switch toward the ∠ 01 position.
- To open or close the moonroof part way, push the switch in either direction (of or or or open or close the moonroof is sliding to stop it in the desired position.

INTERIOR LIGHT

- Push the switch to the ON position of . The interior lights illuminate regardless of door position.
- Push the switch to the OFF position 02. The interior lights will not illuminate regardless of door position.
- Push the switch to the DOOR position

 . The interior lights will stay on for approximately 30 seconds when:
 - The doors are unlocked by a keyfob, key or power door lock switch while all doors are closed and ignition is in the OFF position.
 - The driver's door is opened and the closed with the key removed from the ignition.
 - The key is removed from the ignition and all doors are closed.

01

02

03

FRONT SEAT ADJUSTMENTS

- Pull up on the lever of under the front of the seat and slide forward or backward; release.
- Lift the lever ^{©2} on the side of the seat to adjust your seatback forward or backward; release when you have found a comfortable angle and the seat belt fits properly.
- Pull up or push down the adjusting lever 03 repeatedly to adjust the seat height.

FOLDING DOWN THE REAR SEATS (if so equipped)

Either side of the seatback (or both) can be folded and has its own release.

■ Pull the release 01 on the top of the seatback to fold rear seat down.

BLUETOOTH* HANDS-FREE PHONE SYSTEM (if so equipped)

With an overhead microphone and sound transmitted through the audio system speaker, the Bluetooth® Hands-Free Phone System utilizes Bluetooth® wireless technology and voice recognition to provide hands-free cellular phone communication.

SYSTEM OPERATING TIPS

- Close all windows. Surrounding noises may interfere with system operation and performance.
- Press the 🎉 🌈 button on the steering wheel to activate voice recognition.
- Wait for the tone before speaking.
- Begin speaking a command within 5 seconds of the tone.
- To go back to the previous command, say "Go back" or "Correction."
- To cancel a voice recognition session, wait 5 seconds, say "Cancel" or "Quit," or press the SOURCE button.

Bluetooth[®]

- To increase or decrease the volume of the voice prompts, press the + or (volume) control buttons on the steering wheel or turn the volume knob on the audio system while the system is responding.
- Speak in a clear and natural voice without pausing between words.
- If the Voice Recognition system does not recognize your voice commands, train the system using the Speaker Adaptation Mode.
- Some commands are not available while the vehicle is in motion.
- The "Help" command can be used in any menu to hear a list of available commands.
- Please refer to the cellular phone manufacturer Owner's Manual for detailed information regarding your Bluetooth® phone.
- For recommended phones and detailed instructions, please visit www.nissanusa.com/bluetooth.

PAIRING YOUR PHONE

To use the hands-free feature, you need to set-up, or pair, the system to recognize your cellular phone(s). Five Bluetooth®-enabled phones can be paired. After set-up, the system automatically connects with a paired phone when the ignition is in the ACC or ON position, as long as the phone is on and in the vehicle.

PAIRING PROCEDURE

NOTE: The vehicle must be stationary when pairing the phone.

- 1. Press the № € button on the steering wheel and wait for tone.
- 2. Say "Setup."
- 3. Wait for the tone, then say "Pair phone."
- 4. Wait for the tone, then say "New phone."
- 5. Initiate pairing from the phone.
 - The pairing procedure varies according to each cellular phone model. For detailed pairing instructions and compatible phones, please visit www.nissanusa.com/bluetooth.

- When prompted for a PASSKEY code, enter "1234" from the handset. (The PASSKEY code is assigned by NISSAN and cannot be changed.)
- Say a name for the phone when the system asks you to provide one. You can give the phone a name of your choice.
- 7. Say a number between 1 and 5 when the system asks you for a priority level. The priority level determines which phone interacts with the system when two or more paired phones are active in the vehicle at the same time. Choose 1 if this is the only phone or the primary phone.
- 8. Say "Yes" or "No" when the system asks if you would like to select a custom ring tone. Follow the instructions provided by the system to choose a ring tone.

SETTING UP YOUR PHONE BOOK - ADDING NEW ENTRIES

Each paired phone has its own dedicated phone book. Each phone book can store up to 40 names. Each name can have up to 4 locations/numbers: Home, Office, Mobile, and Other.

NOTE: The vehicle must be stationary when adding new entries.

- 1. Press the № € button and wait for tone.
- 2. Say "Phone book."
- 3. Wait for the tone, then say "New entry."
- 4. When prompted, say the name for the new entry. For example, say "Michelle." If the name is too short or too long, or if it sounds too much like a name that is already stored in the phone book, the system tells you and prompts you to say a name again. Choose a new name.
- 5. Say "Yes" or "No" when the system asks you to confirm the name is correct.
- Say a location ("Home," "Office," "Mobile" or "Other") when the system asks you to provide one. The system acknowledges the location.
- When prompted, say a phone number for the location. For example, say "five five five one two one two." The system repeats the number and prompts you for the next command.
 - By Voice command When prompted, say a phone number for the location. For example, say "five five five one two one two." The system repeats the number and prompts you for the next command.
 - By Bluetooth® transfer Say "Transfer entry." The system acknowledges the command and asks you to initiate the transfer from the phone handset. The new contact phone number will be transferred from the cellular phone via the Bluetooth® communication link. The transfer procedure varies according to each cellular phone. See the cellular phone owner's manual for details.
- 8. Say "Store" when you are finished entering numbers. The system confirms the name, location, and number.
- Say "Yes" or "No" when the system asks if you would like to store another location for the same name. If you do not respond to the system prompt, the system ends the New Entry session.

MAKING A PHONE CALL

- 1. Press the 🗞 🕜 button.
- 2. After the tone, do one of the following:
 - Say "Call [name] [location]". For example, say "Call Michelle Home".
 - Say "Call [number]". For example, say "123-456-7891".
 - Say "Redial" to redial the previous phone number called by the system.
 - Say "Call International" to dial more than 10 digits or any special characters.

RECEIVING/ENDING A PHONE CALL

When you receive a phone call, a ring tone sounds through the audio system.

- To accept the call, press the vertex button. To reject the call, press the source button.
- To hang up the phone at the end of a call or to disconnect during call placement, press the source button.

HOW TO SAY NUMBERS

NISSAN voice recognition permits numbers to be spoken in a variety of ways.

- Say "zero" or "oh" for "0". Example: 1-800-662-6200 Say "one eight zero zero six six two six two oh oh".
- Say "pound" for "#". Say "star" for "*" (available when using the "Call International" command, and the "Send" command during a call).
- Say "plus" for "+" (available only when using the "Call International" command).
- Say "pause" for a 2 second pause (available only when storing a phone book number).
